Elena Uvarova

has successfully completed the online, non-credit Professional
Certificate

Figma, Sketch & Miro for UX Design

The UX Design Toolkit Professional Certificate is crafted for intermediate learners aiming to deepen their understanding and proficiency in user experience design. Tailored to harness today's cutting-edge design tools and techniques, this Professional Certificate offers practical insights and hands-on projects to enhance your capabilities in creating intuitive and impactful digital experiences. From initial discovery phases to high-fidelity design and user testing, you will explore methodologies that drive user-centered design principles using Figma, Sketch, Miro, and AI technologies. Upon completion, you will be equipped to efficiently move through the design process, from research and ideation to testing and iteration, significantly upgrading your ability to produce industry-standard UX.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
